

FORKLIFT MOUNTING PLATE TEMPLATE

Forklift Mounting Plate Instructions

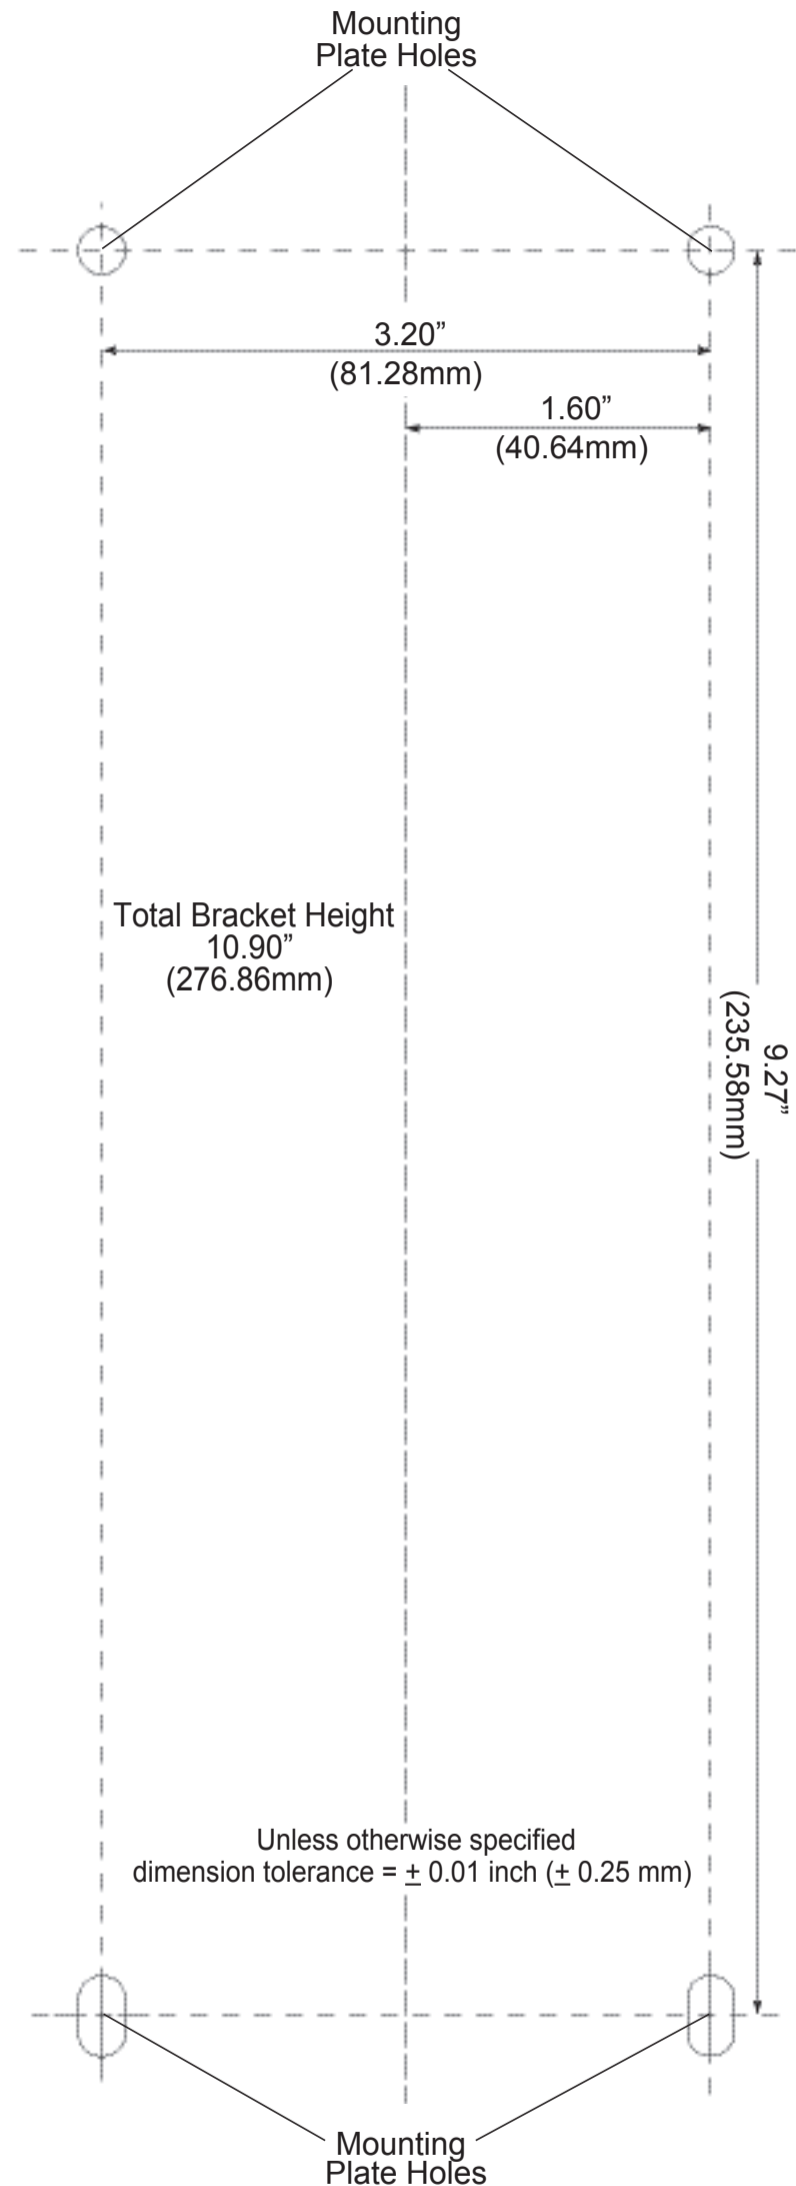

To install the forklift mounting plate:

1. Position the forklift mounting plate template on the mounting surface to determine the location of the mounting screw holes.
2. Pre-drill holes to accommodate four 1.5" #8 head screws.
3. Screw the the mounting plate on to the mounting surface.
4. Attach the interface and power cables to the appropriate ports as necessary.
5. Attach the FLB3678 cradle to the three cradle mounting holes on the mounting plate using the three mounting screws provided.
6. Place the scanner in the cradle.

NOTE: When printing the Forklift Mounting Plate Template, ensure that the dimensions print correctly by setting the **Page Sizing and Handling** to **Actual Size**.
